

SCOTT VOICE AMPLIFIER

IMPROVED COMMUNICATIONS FOR AV-2000 & AV-3000 FACEPIECES

Scott respirator users may now project their voices over greater distances than ever before by means of the voice amplifier for the Scott facepiece. Designed to promote stronger person-to-person communications, this accessory adds amplification to the already clear, crisp voicemitter capabilities of the AV-2000 and AV-3000 facepieces. Featuring a miniature, battery-powered microphone, the voice amplifier is contained in a compact, lightweight housing mounted to the facepiece voicemitter. A single, fresh 9-volt battery will provide approximately 20 hours of continuous communication.

PRODUCT HIGHLIGHTS

- Promotes Stronger Person-To-Person Communications
- Easy Installation & Maintenance
- Mounts To Existing AV-2000 or AV-3000 Facepiece With Simple Quarter Turn
- 20 Hours Of Continuous Communication With Single 9V Battery
- Rugged, Dependable User Performance

IMPROVED COMMUNICATIONS

AV-2000® AND AV-3000® VOICE AMPLIFIER

Promoting Stronger Communications

The Scott Voice Amplifier provides improved communications for air-supplied and air-purifying respirator users. The Voice Amplifier improves person-to-person communications by projecting the user's voice clearer and farther than it would with no amplification at all. The Voice Amplifier can help your team communicate better in any environment you encounter.

Easy Installation & Maintenance

The Voice Amplifier can be mounted on all existing Scott AV-2000 or AV-3000 facepieces by means of a single mounting bracket. The bracket is secured over the voicemitter housing. All that is needed to lock the Voice Amplifier in place is a single quarter turn. The Voice Amplifier may also be transferred to other bracket-equipped AV-2000 or AV-3000 facepieces.

Ordering Information for AV-2000 Voice Amplifier

Part Number	Description
804564-01	Voice Amplifier Assembly (Includes Installation and Operation Manual (89328-01) and Battery)
804636-01	AV-2000 mounting bracket
805787-01	AV-3000 mounting bracket (right side)
805787-02	AV-3000 mounting bracket (left side)

Rugged Simplicity

Like all Scott products, the Voice Amplifier is designed for ease of use and reliability under the most demanding conditions. The Voice Amplifier conveniently runs off one 9-volt battery, providing approximately 20 hours of continuous communication. The Voice Amplifier's lightweight design means there is no loss of facepiece comfort or performance.

Weight

- 5.9 Ounces (168 g) with battery

Approvals

- ETL listed for Intrinsic Safety Class I, II, III, Div. I, Groups A, B, C, D, E, F and G per ANSI/UL 913
- Maintains respirator NIOSH certification
- NFPA 1981 compliant as an accessory on SCBA
