

SCOTT FACEPIECE LENS KIT

CUSTOM ENGINEERED EYEWEAR

Facepiece Lens Kits from Scott are the latest innovation in custom engineered eyewear. Precisely sized, shaped and angled for each unique facepiece, Scott Facepiece Lens Kits provide the wearer with a comfortable and visually superior optical system. Two sleek, modern designs are easy to install and provide a large field of view. With a choice of four lens options, each designed for specific tasks, firefighters can be assured of having better vision on the fireground. Designed for an array of environments, the unique and proprietary SMOKESIGHT XT™ lenses, tinted yellow, enhance vision in smoke and low light environments and afford sharper contrast detail. The True Color Reception™ (TCR™) gray lenses absorb glare away from the eyes improving visibility in bright light situations. The Metallized Surface Lenses™ (MSL™) with blue or silver mirrored lenses absorb and reflect glare away from the eyes while aiding in job performance and safety. Rugged, secure and coated with a resilient finish, Scott Facepiece Lens Kit frames are also available prescription ready with stainless steel screws and high performance eye wires for a secure lens fit benefiting strong prescriptions and bifocals. So change your view and enhance vision on-site with Scott's Facepiece Lens Kits.

PRODUCT HIGHLIGHTS

- Relieves Eye Strain
- Improves Visibility in Bright Sunlight
- Enhances Firefighter Performance and Safety

SCOTT FACEPIECE LENS KITS

ENHANCED VISION UNDER FIRE

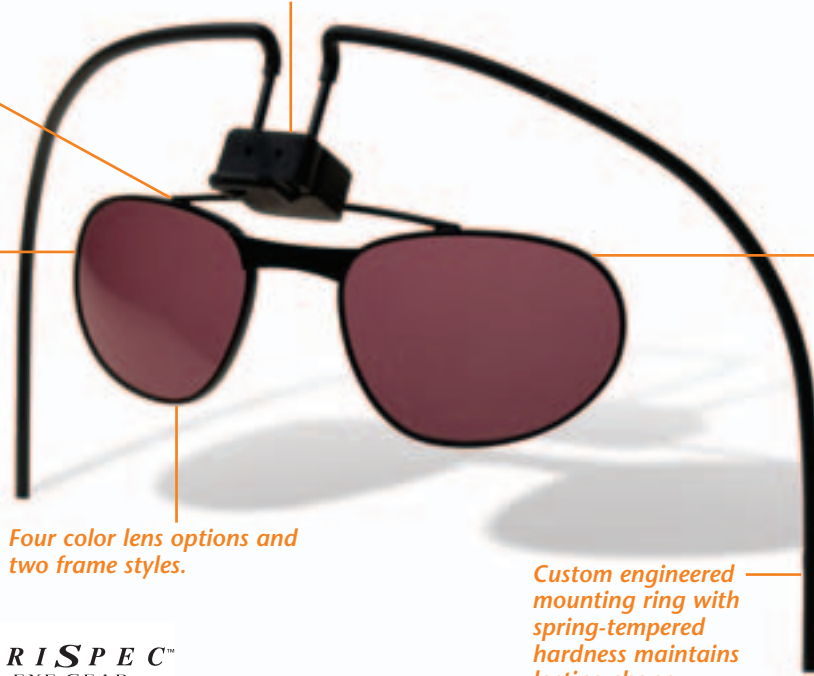

AV-3000™ Facepiece

Solder joints are brazed with high melt temperature filler and custom flux for unsurpassed strength.

High strength stainless steel eye wire screws are strategically placed to maximize peripheral vision.

Unique 3-D formed; stress resistant thermoplastic elastomer support block maintains optimal positioning.

Digitally sculptured high-tech alloy frames are hand polished and coated with a premium multi-layered finish for maximum durability.

Four color lens options and two frame styles.

Custom engineered mounting ring with spring-tempered hardness maintains lasting shape.

Coated with a premium multi-layered finish and insulated with a specialized polymer tubing to provide a secure grip.
